DEDICATION

This yearbook is dedicated to those brave people who brought about the birth of our nation. To those colonists who acted together and met to oppose British demands. To those who began the long struggle from the first shots fired at Lexington to the surrender of Cornwallis at Yorktown. To all of those banded together by common ideals who brought about much more than mere independence. To those who established our nation as a place where every human being could be free, and have something to say about how he was governed. These ideals of liberty grow brighter each day . . . we are grateful.

THE FLAG . . .

Every country has its own flag. Our flag did not always look the way it does today. In the early days the colonists lived in thirteen separate colonies, each with its own flag.

The first days of the Revolutionary War, the colonists carried their old flags into battle. They needed one flag to stand for all the colonies fighting together. The American flag was to have a star and a stripe for each of the thirteen colonies.

The Betsy Ross Flag with the stars arranged in a circle was based on the idea that no colony should take precedence. This flag evolved into our present day flag.

All other flags soon disappeared after the Stars and Stripes was adopted, yet the insignia shown on some of them appears occasionally on a state flag.

I believe in the United States of America as a government of the people, by the people, for the people; whose just powers are derived from the consent of the governed; a democracy in a republic, a sovereign nation of many sovereign states; a perfect union, one and inseparable; established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes. I therefore believe it is my duty to my country to love it, to support its constitution, to obey its laws, to respect its flag, and to defend it against all enemies.

IN CONGRESS, JULY 4, 1776.

The unanimous Declaration of the thirteen united States of America,

When in the course of human events it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation. — We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. — That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, — That whenever any form of government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security. — Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let facts be submitted to a candid world. —

He has refused his Assent to Laws, the most wholesome and necessary for the public good. — He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them. — He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only. — He has called together Legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures. — He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people. — He has refused for a long time after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the mean time exposed to all the dangers of invasion from without and convulsions within. — He has endeavored to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands. — He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary powers. — He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries. — He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our People, and eat out their substance. — He has kept among us, in times of peace, Standing Armies without the Consent of our Legislatures. — He has affected to render the Military independent of and superior to the Civil power. — He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation: — For quartering large bodies of armed troops among us: — For protecting them, by a mock Trial, from punishment for any Murders which they should commit on the Inhabitants of these States: — For cutting off our Trade with all parts of the world: — For imposing Taxes on us without our Consent: — For depriving us in many cases, of the benefits of Trial by Jury: — For transporting us beyond Seas to be tried for pretended offenses — For abolishing the free System of English Laws in a neighbouring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies: — For taking away our Charters, abolishing our most valuable Laws and altering fundamentally the Forms of our Governments: — For suspending our own Legislatures, and declaring themselves invested with Power to legislate for us in all cases whatsoever. —

He has abdicated Government here, by declaring us out of his Protection and waging War against us. — He has plundered our Seas, ravaged our Coasts, burnt our Towns, and destroyed the Lives of our People. — He is at this time transporting large Armies of foreign Mercenaries to compleat the works of death, desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation. — He has constrained our fellow Citizens taken Captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands. — He has excited domestic insurrections amongst us, and has endeavoured to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions. In every stage of these Oppressions We have Petitioned for Redress in the most humble terms: Our repeated Petitions have been answered only by repeated injury. A Prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free People. Nor have We been wanting in attentions to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends. —

We, therefore, the Representatives of the united States of America, in General Congress, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by authority of the good People of these Colonies, solemnly publish and declare, That these United Colonies are, and of Right ought to be Free and Independent States; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as Free and Independent States, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do. — And for the support of this Declaration, with a firm reliance on the protection of divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor.

"A thoughtful mind when it sees a nation's flag, sees not the flag, but the nation itself. And whatever may be its symbols, its insignia, he reads chiefly in the flag, the government, the principles, the truths, the history that belongs to the nation that sets it forth. The American flag has been a symbol of Liberty and men rejoiced in it."

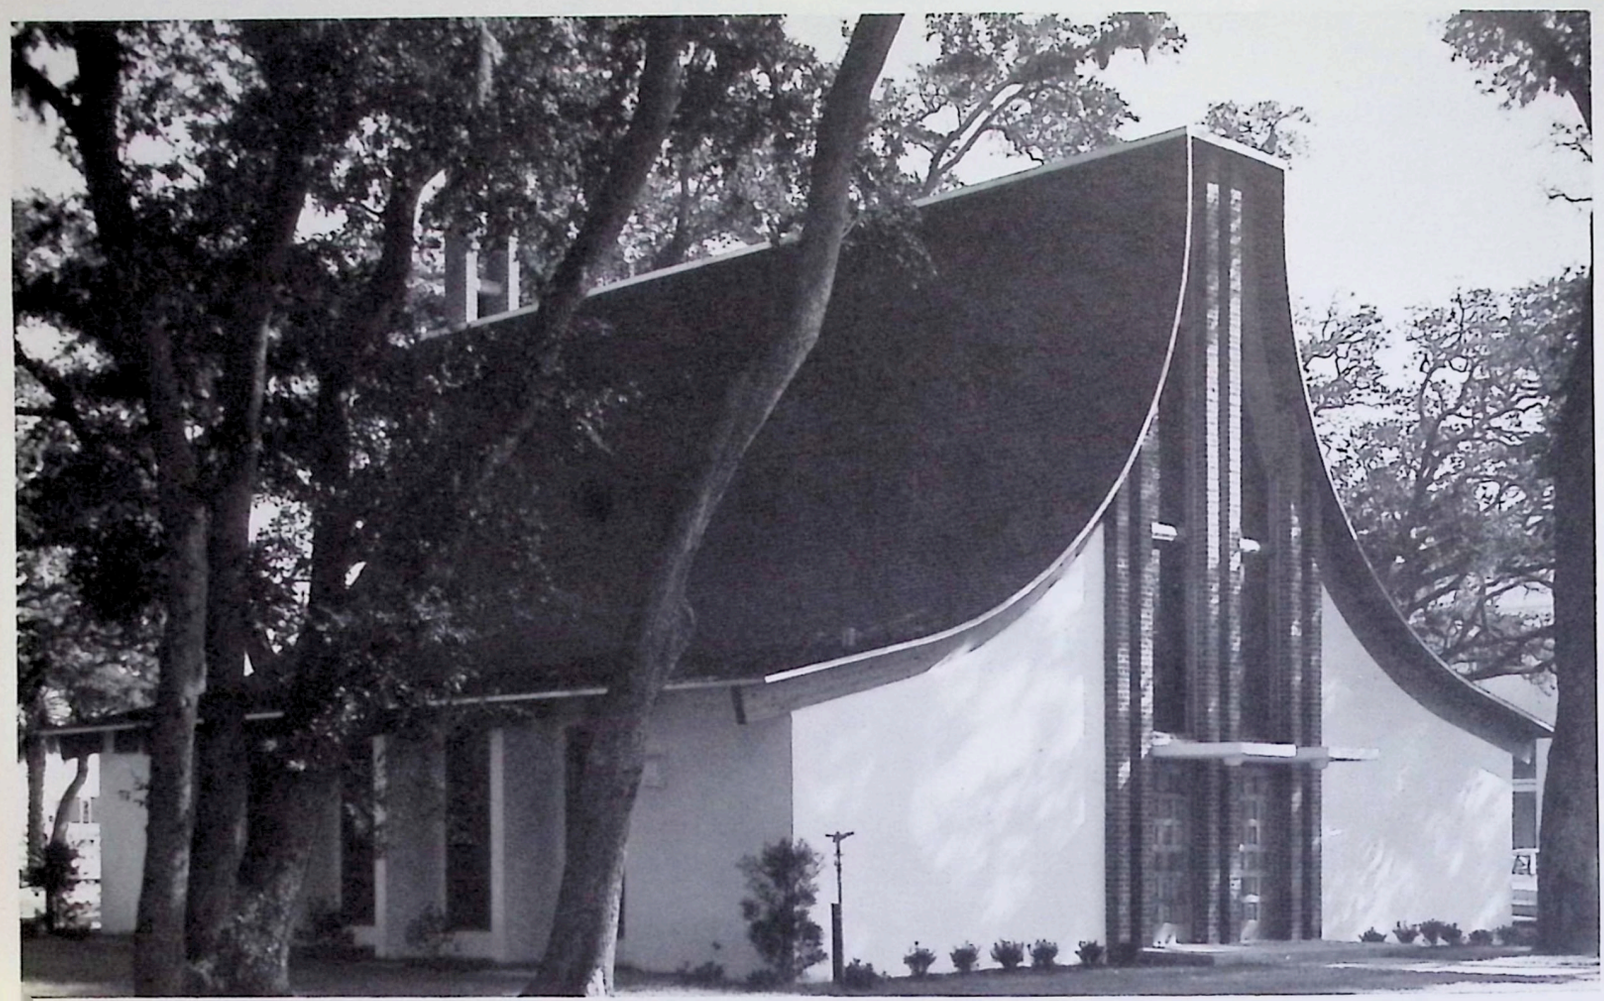
RELIGIOUS EDUCATION



INTERFAITH CHAPEL

Left to right: Rev. Sandy Storrie, Baptist; Sister Rita Baum, Catholic; Rev. Mike Busby, Lutheran

The goal of the Religious Education Staff is to make God real in the lives of FSDB students. We strive to meet this goal through a ministry that teaches our students to use God's Word, worship God with heart and mind while learning that they can also minister to each other. The churches providing programs on campus see the importance of co-operation in ministry without compromising. Our ministry is carried on in three areas. The first is through personal visits to students so that they may feel free to discuss their problems, joys and frustrations with us. Secondly, we have regularly weekly classes for students of all ages and, thirdly, we provide worship experiences for students on and off campus.

The Class of '76 contributed well to the football roster of our school and the loss of these players is going to be a heavy blow to our chances for another winning season. Stellar performers all, they leave a record to be envied: John Baum, an All-State selection as a Punter; Lee Hartzell, a four-year starter at center; Jerome Jackson we capped a brilliant three-year role as starting fullback by scoring 132 points the past season; Bill Tibbott, who successfully made the switch from defensive end to tackle and was a mainstay all season.

TOM KROHN GETS SET TO SCORE

As we go to press in mid-February, the B team, under the direction of Coach Mike LaMe has compiled a fine record of 11 wins against only 5 losses. This spirited bunch of youngsters should provide the varsity with plenty of rebuilding material for next season.

Under the able coaching of Henry White, the Dragons again fielded strong teams in Track and Cross Country running. The latter sport was revived after a ten-year absence. Many of his boys have represented the U.S. in World Games for the Deaf competition.

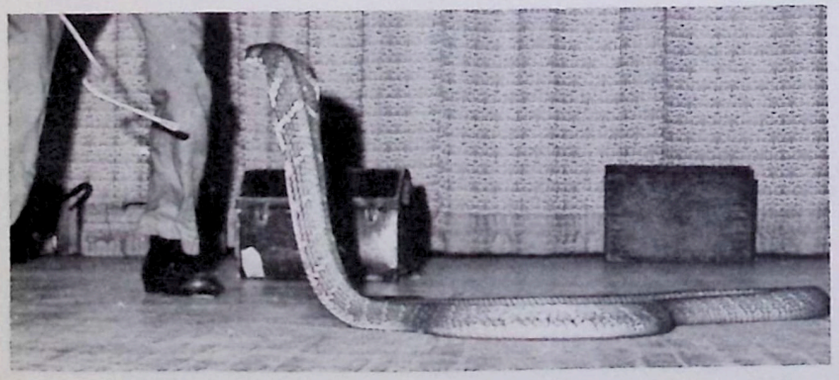
SOME HIGHLIGHTS OF A GREAT YEAR

One of the advantages of being in St. Augustine is the constant flow of historical visitors passing through America's Oldest City. Here Miss Carson's class meets some visiting English soldiers dressed in Continental uniforms.

Tina Frantz, our Class President and Homecoming Queen took first place honors in the Jay Cee's Wives Jr. Miss Pageant, the first time our school has ever won top honors.

The annual Halloween Parade brings out the best in our younger students . . . and also brings out the worst in some of our adults who can't resist wasting state time to relive their own childhoods.

A lesson in Indian Lore is well-learned under the shade of the great oaks trees which grace our front campus. Dedicated and resourceful teachers were ever ready to help us learn things clearer.



Believe it or not, we actually had a live King Cobra, the most deadly reptile in the world, slithering across the Kirk Auditorium stage. Fortunately, this reptile behaved himself but sent chills up and down our spines, nontheless.
